

CASE STUDY

RE-ROOFING

RE-ROOFING

I selected Moran Roofing above others as their quotation was the best price and the work was explained in a good level of detail.

Previous work by another Roofing contractor was sub-standard, after an inspection of building standards, and therefore extensive corrective work was needed.

I requested Moran Roofing's assistance with replacement roof covering, fascias, soffits, and gutters.

The project ran smoothly with no delays. They were a friendly and considerate team who even refused a tip!

Moran Roofing exceeded my expectations.

As an extra, they stripped out incorrect insulation and replaced it with the correct insulation. They kept me up-to-date with pictures as the work was progressing.

I recommend them because my experience was over and above what I expected while the cost was very reasonable.

Mr Bingham
